

48h Sound Design Workshop

Public presentation **Saturday, April 30 2016, 4:30pm**

Château la Coste visitors will have the opportunity to listen to what sound designers have created in 48 hours to acoustically extend some artworks.

Several sound designers will take part in the workshop. In 48 hours, each of them will tackle one artwork and propose an aural interpretation of the selected piece. It will be the occasion to introduce sound design tools and methods being developed within the EU project SkAT-VG (skatvg.eu). During a guided tour on Saturday afternoon, sound designers will present their creations and explain their work process.

◆ About Château la Coste

The Château la Coste is a winery where oenology and art live in harmony (works by Ando, Nouvel, Gehry, Bourgeois, etc).

◆ About GENESIS

GENESIS is a company based in Aix-en-Provence, expert in sound perception, acoustics simulation, and sound design.

◆ About World Voice Day

WORLD VOICE DAY

The 48h sound design workshop is organized in the World Voice Day context.
